

Zer0Con2020 Call for Papers

TOPIC

Zer0con focuses on finding, analyzing, and exploiting vulnerability.

- * Web Browsers Exploitation(Chrome, Edge, Safari, FireFox are preferred.)
- * OS Kernel Exploitation(Windows, macOS, Linux, etc)
- * iOS Exploitation
- * Android Exploitation
- * Revolutionary Web Hacking Technique
- * Security Product Exploitation
- * Hardware Exploitation
- * IoT Exploitation
- * AI Exploitation
- * Bug Hunting(above targets)
- * ETC(Something REALLY cool & critical)

If you presented or published your topic in the past, Zer0Con will not accept your paper. Zer0Con wants only something new, creative, and cool. All speakers should show 'real' demo how to exploit.

Deadline of Submission

You should submit by February 25, 2020. All submission must include a detailed abstract file in English with your brief biography.

E-mail for submission

- * zer0con@pocsec.com
- * <http://www.zer0con.org/zer0con.asc>
